design what gets me going

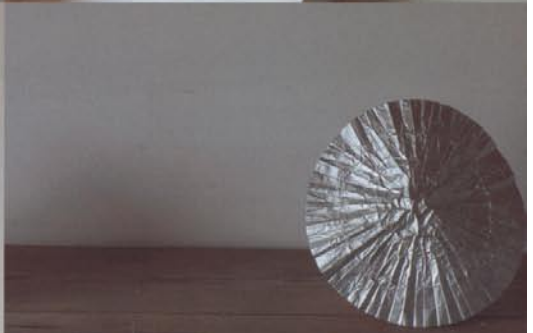

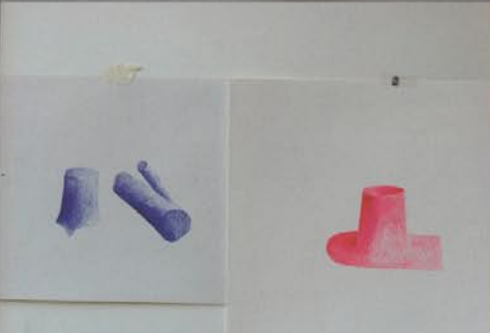

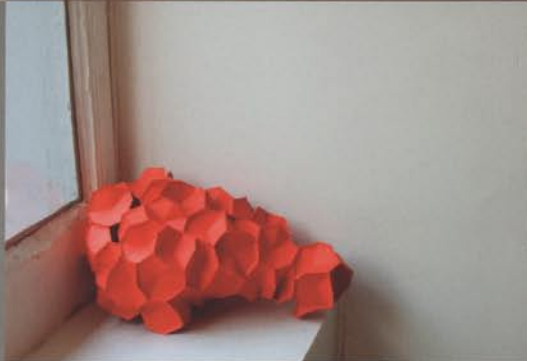

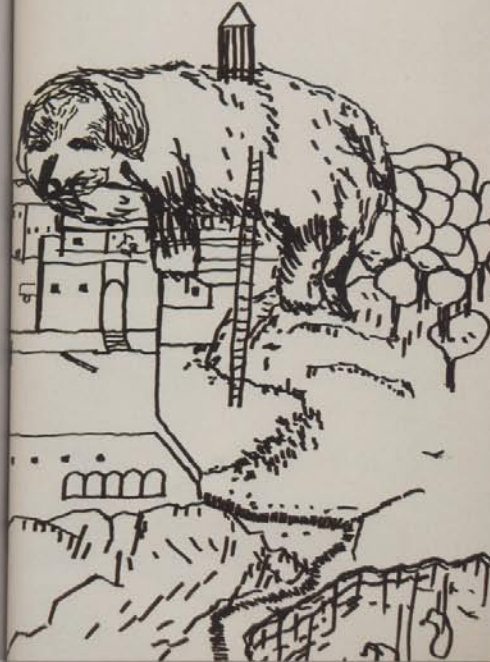

Wall Stories

MURALS FROM THE BOURULLECS

Ronan and Erwan Bouroullec are designers that manage to effuse the form/function equation with the added element of feeling. In their work for companies like Vitra, Cappellini, Kvadrat and Magis, and more recently in architectural projects and installations, there is an invitation to the imagination that inspires an ultra-modern experience open to individual memories and emotions. Exclusively for DAM[®], the French brothers present their studio in a way that hints at the organic nature of their creativity.
